

### Programmer / ICT Support:

Because of my strong interest I keep track of new developments in IT. In my spare time I manage a few projects which involve programming and setting up infrastructures. I'm also very familiar with web development and databases. I like to analyze problems and to find ways to solve them. And I'm very eager to learn new things.

# Kazmierczak Steven

### Date of birth

03-08-1989

### Address

Belgium, Limburg  
3530 Houthalen, Korhoenstraat 5
